Previous OURE Fellows Projects

- Quorum Sensing in Bradyrhizobium Japonicum
- Thermodenuder Penetration and Volatile Component Removal Study: Investigation of Improvements and Their Implementation
- Usability Framework of Performance Dashboards: A Case Study
- Influential Factors in an Enterprise Mobility Strategy
- Biofilm Formation and the Antibacterial Properties of Silicon Nitride and Other Biomaterials
- Effects of B3 Bioactive Glass Length on in Vivo Angiogenesis
- Synthetic Biology Approach to Make Drought Tolerant B. Japonicum
- Robotic Surveillance Spider
