Missouri University of Science & Technology

The symposium on Service Learning is a chance for the UM system and community partners to come together to learn what we are doing and to build strong relationships with our partners.

Our keynote speaker will be Dr. Candace Galen, Professor of Biological Sciences from the University of Missouri Columbia who received the 2016 President’s Award for Community Engagement.

Dr. Galen’s research focuses on bringing scientific research directly into elementary school classrooms in the Columbia community.
