2013 Externship Program

Do you want to...

- Make sure the major you’ve chosen is a good fit?
- Learn more about the kind of company you will work for after college?
- Participate in an informal learning community with other Missouri S&T students?
- Find additional academic motivation?

Then the Missouri S&T Externship Program is right for you!

- Spend part of Spring Break with a company that hires Missouri S&T grads
- Get a general introduction to, and overview of, a company’s operations
- Learn about corporate social responsibility and accountability

“The Externship Program...allowed me to see what a chemical engineer does on a daily basis, and it gave me the opportunity to see real life applications of what I learn about in my classes. While school teaches us the book knowledge, it was nice to see how we would be able to use what we learn when we get a job someday.” ~ 2010 Extern
